Hospital Donates Help for Christmas

Wave 20 Dec '84

Mr. William Terry, Hospital Director accepts hand-made items from long term care patients that will be used for a Christmas Sub-for-Santa.

Patients and staff at Wasatch County Hospital have been working very hard to help Santa this year. They have chosen two families in the valley to help Santa bring Christmas to. The staff has contributed food, toys, clothes, and money, from their hearts and hard labors. The Long Term Care patients have made toys; all kinds, from dolls to rocking horses. We hope to make this a very special Christmas for our families. Also we would like to wish all of the residents of Heber Valley a Merry Christmas. A hopeful Christmas and a healthy New Year. From the Staff and Patients of Wasatch County Hospital.
